Do you have a passion for helping those who are in need? Do you enjoy spending time with people? Maybe you are considering a career in social care? then we are looking for you.

Southend Care is looking for **Volunteers** to help out in our services. We are a caring and passionate company who support over 1000 vulnerable people in the local community. We enable those who are disadvantaged and ensure all our customers are valued as individuals.

In our modern lives social isolation and loneliness is becoming a normal part of everyday life, through volunteering you can help us fight against this and create a fun and enjoyable environment for our customers. By offering companionship, and emotional support through activities such as taking a stroll along the seafront, doing arts and crafts on a rainy day, listening to music or simply having a cup of tea and listening to our customers stories you can improve individuals mental wellbeing as well as enabling them to have access to the community.

We can offer a range of services and roles to volunteer in; such as our Residential home for the elderly in our brand new care facility, our Supported living schemes for adults with learning difficulties and Extra care schemes for the elderly, or our Day centre for adults with learning difficulties and complex health needs.

Volunteering leads to:

- Making friends, joining a friendly care team
- Gaining experience in Health and Social Care
- Learning new skills
- Giving back to your community
- Gain or enhance people skills

As you will be in contact with vulnerable adults we will require a Basic DBS Certificate (this is free of charge for Volunteers) and two references. We will also offer you training to ensure you are confident and offer you all the support you need to carry out in your much needed (or valued?) role.

Join us today, volunteer alongside highly trained Healthcare professionals and learn new people skills!
